

Findings & Recommendations

Key Findings

- Critical lack of encryption
- No backup or disaster recovery
- Weak access control
- Outdated systems
- No IDS/IPS
- Non-compliance with PCI DSS & SOC
- Partial GDPR compliance
- Weak password policy

Recommendations

High Priority

- Implement encryption
- Deploy IDS/IPS
- Establish daily backups
- Enforce least privilege
- Implement MFA
- Create incident response plan
- Achieve PCI DSS compliance

Medium Priority

- Improve physical security
- Conduct employee training
- Implement password manager
- Establish patch management

Low Priority

- Update privacy and retention policies
- Improve documentation
